

FORELIMB

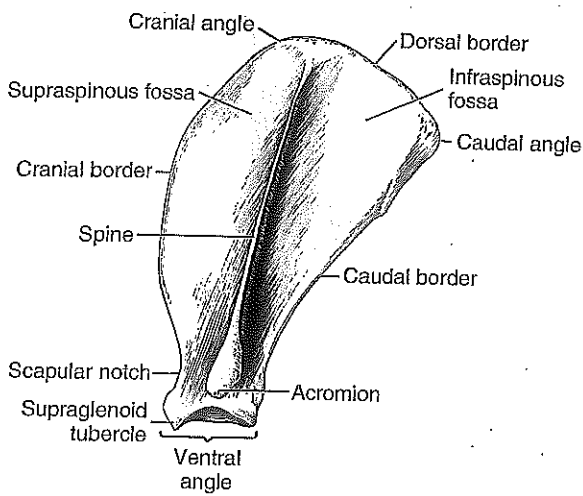

FIGURE 4-91 Left scapula, lateral aspect.

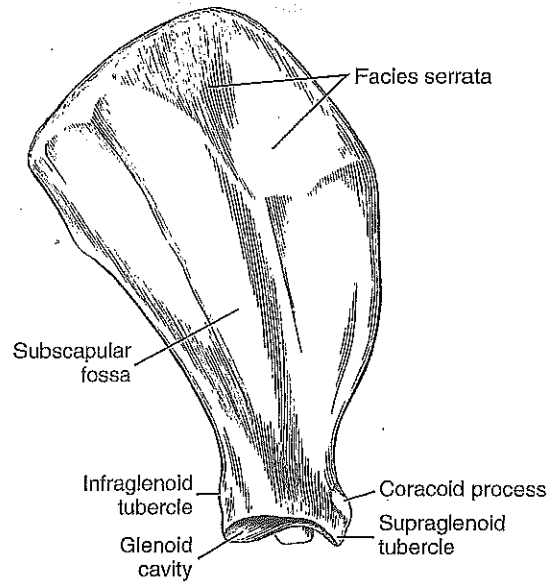

FIGURE 4-93 Left scapula, medial aspect.

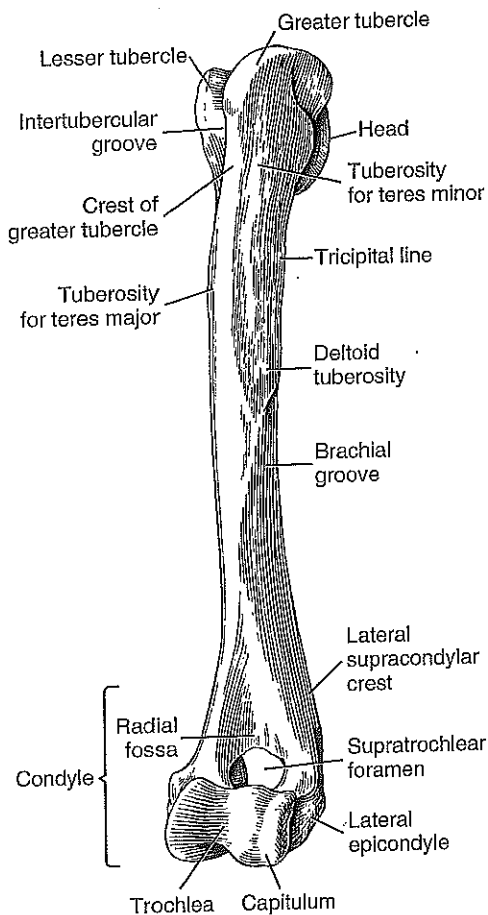

FIGURE 4-95 Left humerus, cranial lateral aspect.

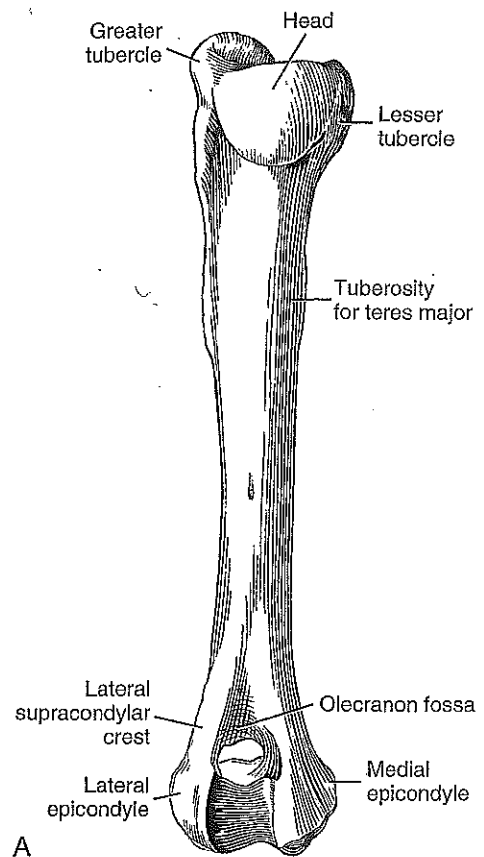

FIGURE 4-97 A, Left humerus, caudal left humerus.

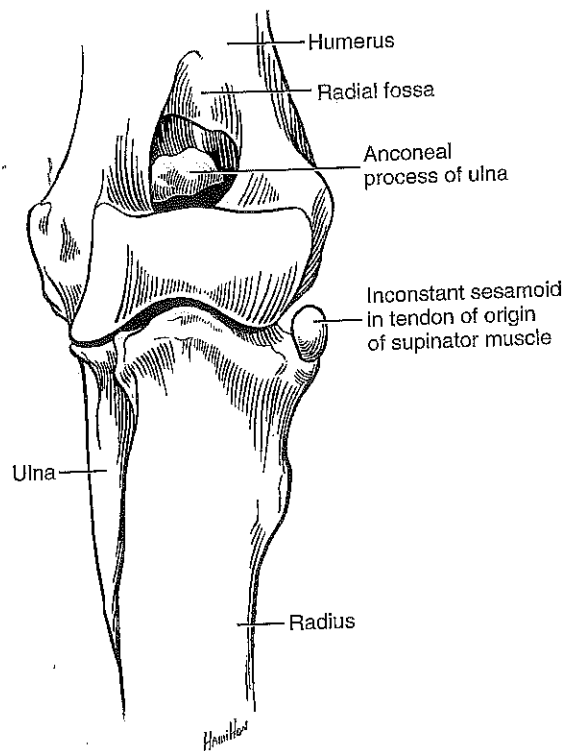

FIGURE 4-101 Left elbow joint of a coy-dog, cranial view.

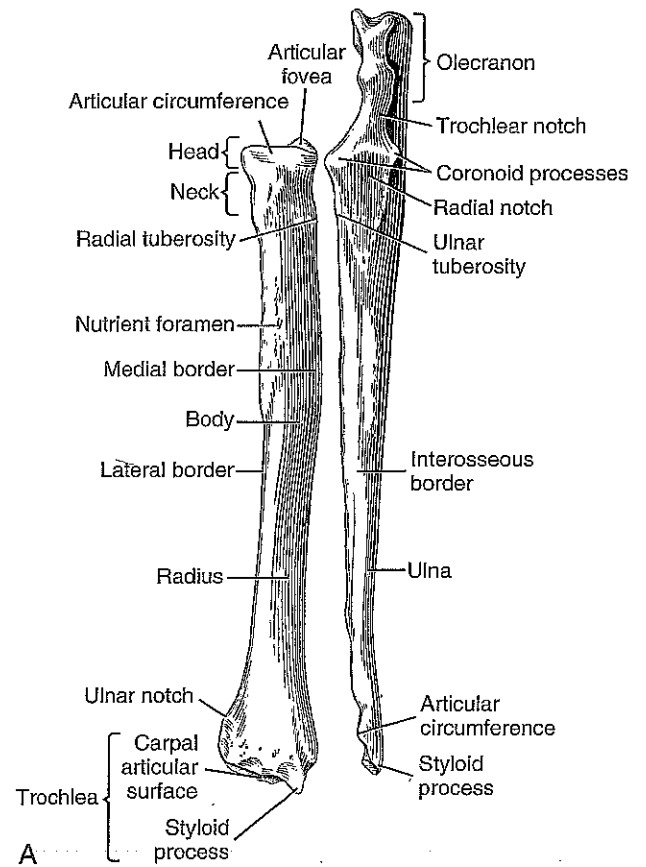

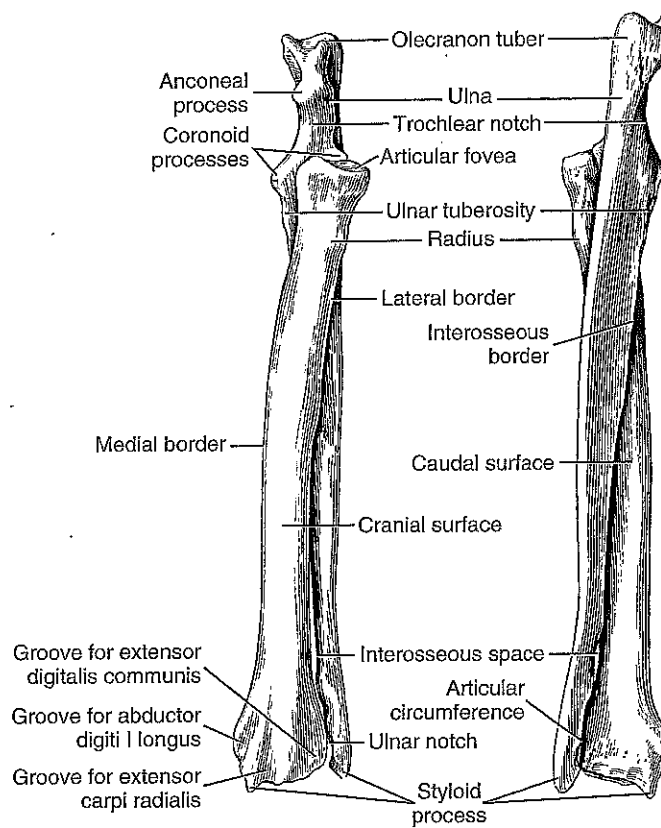

FIGURE 4-102 A, Left radius, caudal surface: Left ulna, cranial surface, disarticulated.

B, Left radius and ulna articulated, cranial C, Left radius and ulna articulated, caudal aspect.

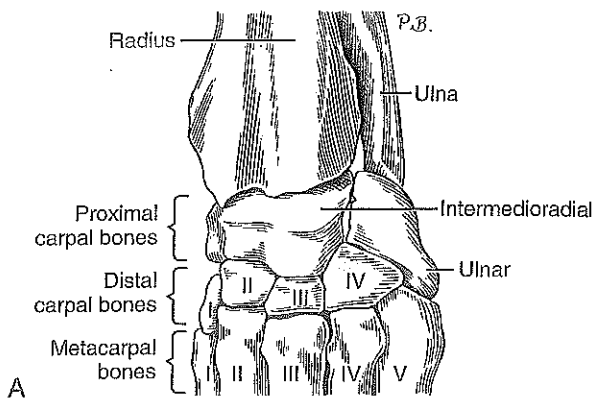

FIGURE 4-108 A, Left carpus, articulated, dorsal aspect.

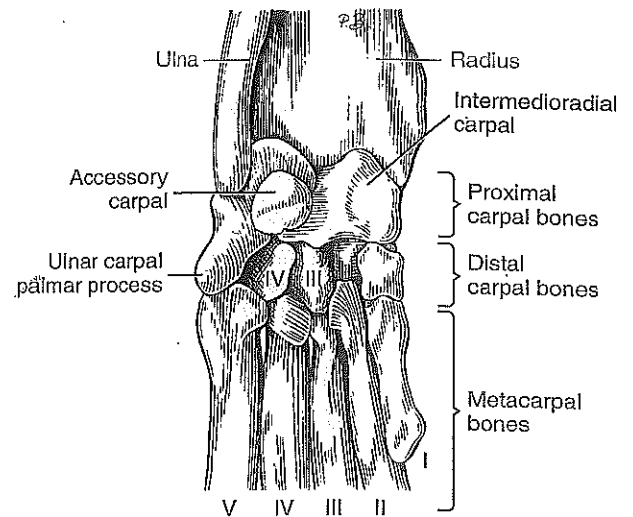

FIGURE 4-115 Left carpus, articulated, palmar aspect.

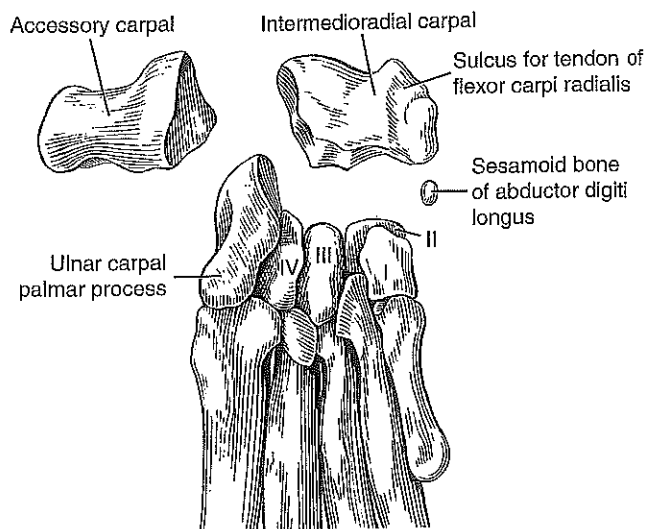

FIGURE 4-116 Left carpal and metacarpal bones, palmar aspect. Intermediaradial and accessory carpal bones disarticulated.

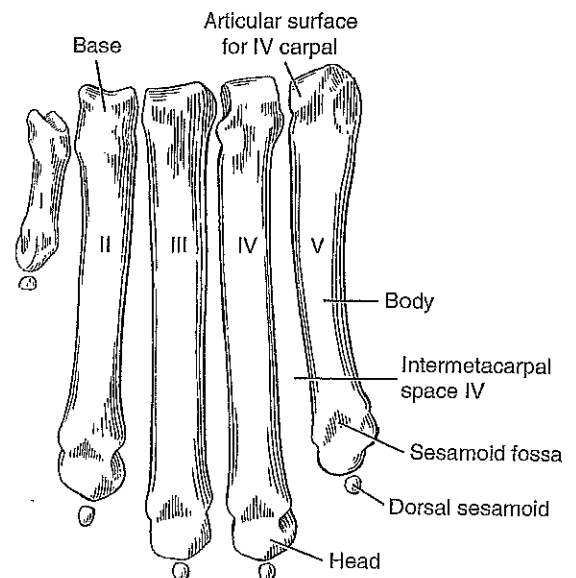

FIGURE 4-112 Left metacarpal and sesamoid bones, disarticulated, dorsal aspect.

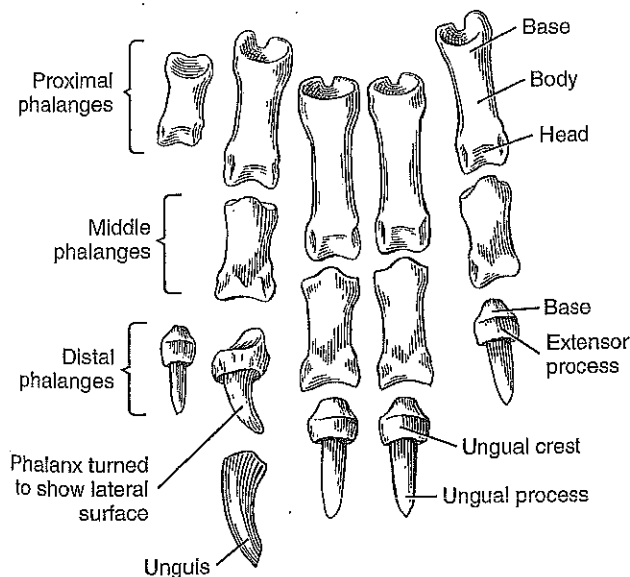

FIGURE 4-113 Phalanges, disarticulated, dorsal aspect.

HINDLIMB

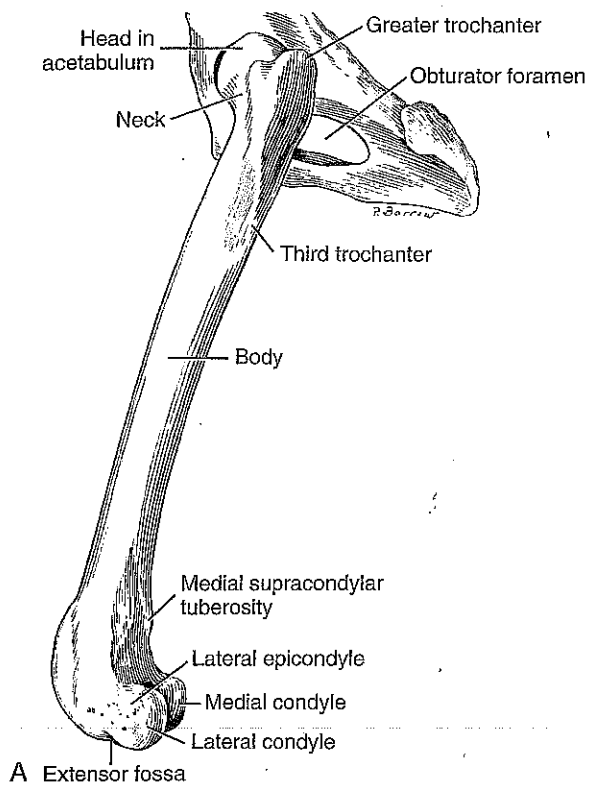

FIGURE 4-127 A, Left femur and os coxae articulated, lateral aspect.

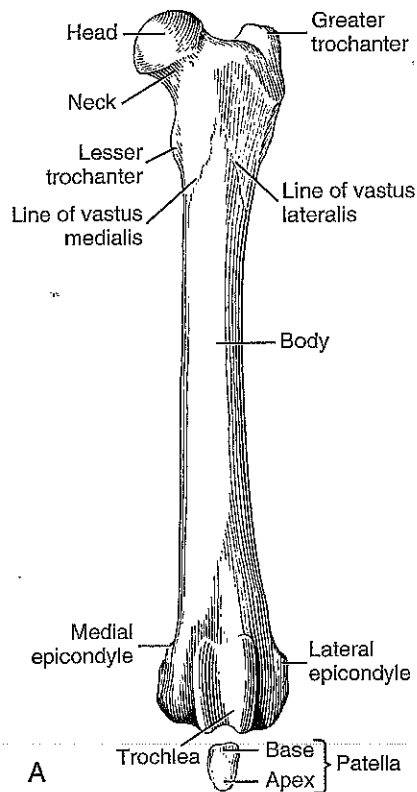

FIGURE 4-128 A, Left femur with patella, cranial aspect.

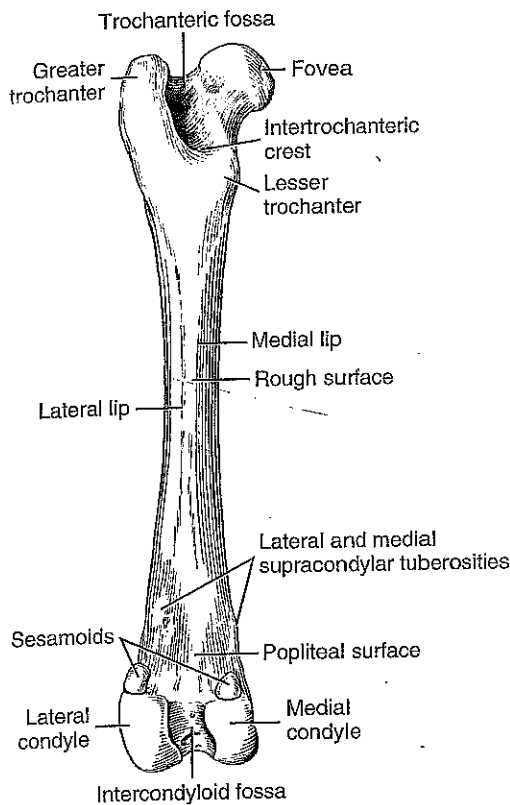

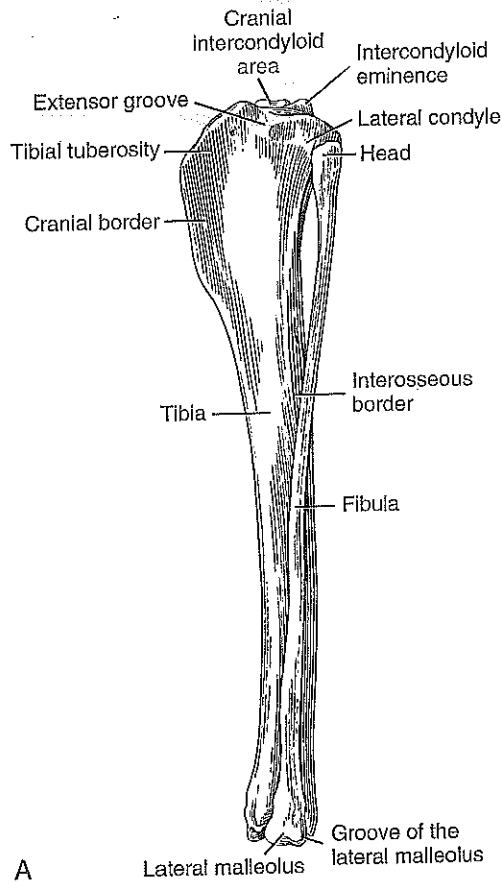

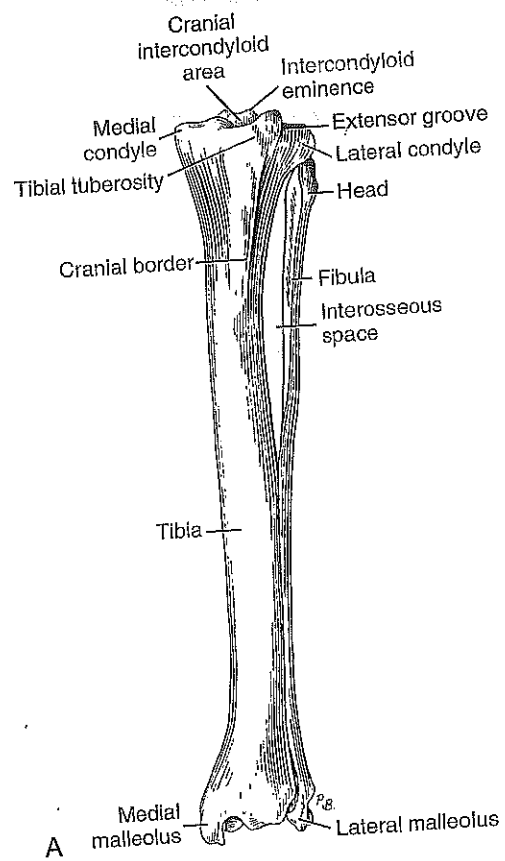

FIGURE 4-129 Left femur with fabellae, caudal aspect.

A, Left tibia and fibula articulated, lateral aspect.

A, Left tibia and fibula articulated, cranial aspect.

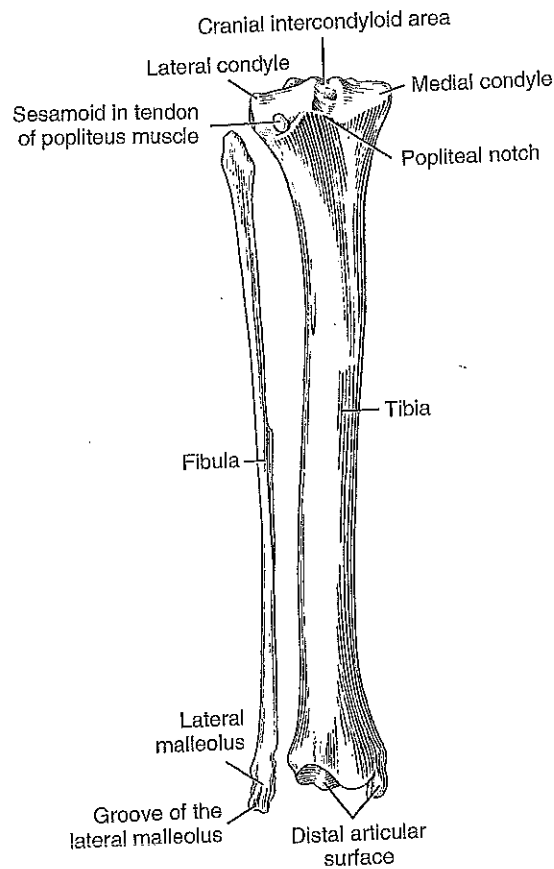

FIGURE 4-134 Left tibia and fibula disarticulated, caudal aspect.

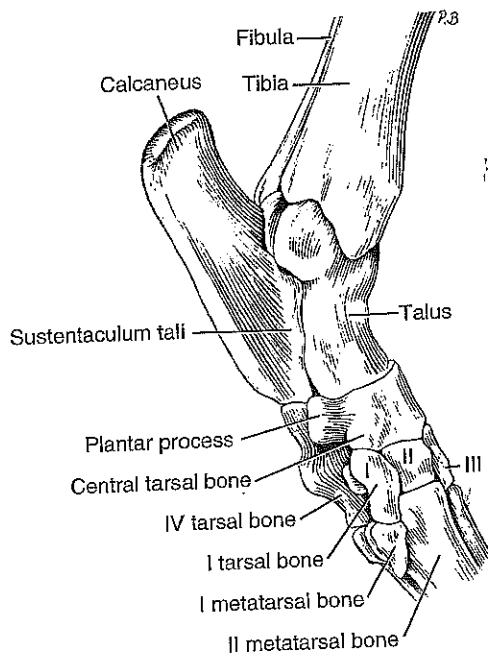

FIGURE 4-137 Left tarsus, articulated, medial aspect.

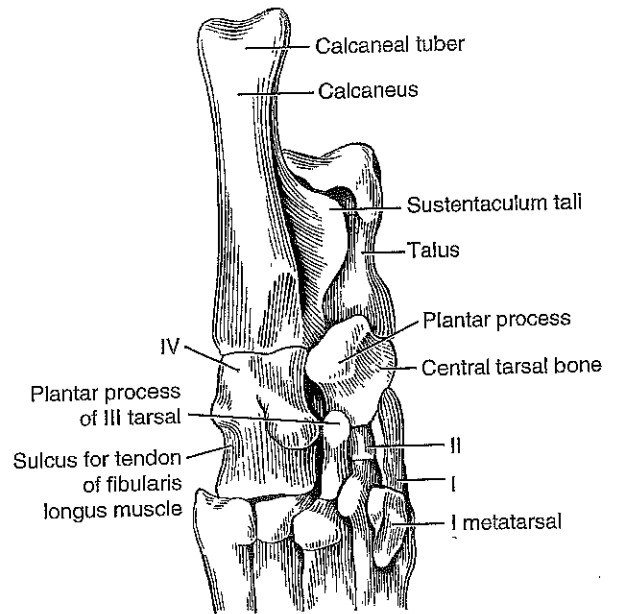

FIGURE 4-139 Left tarsus, articulated, plantar aspect.

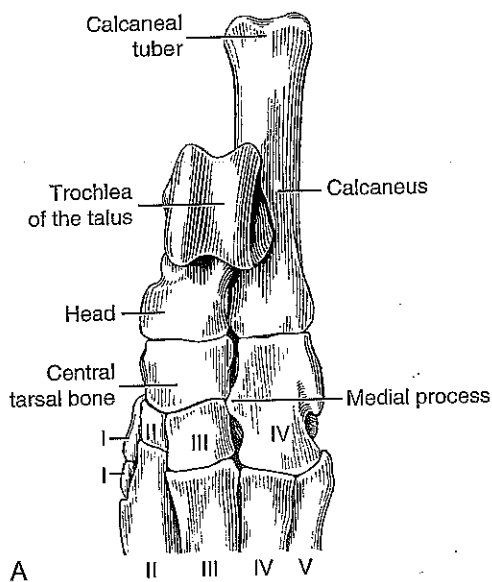

FIGURE 4-143 A, Left tarsus, articulated, dorsal aspect.

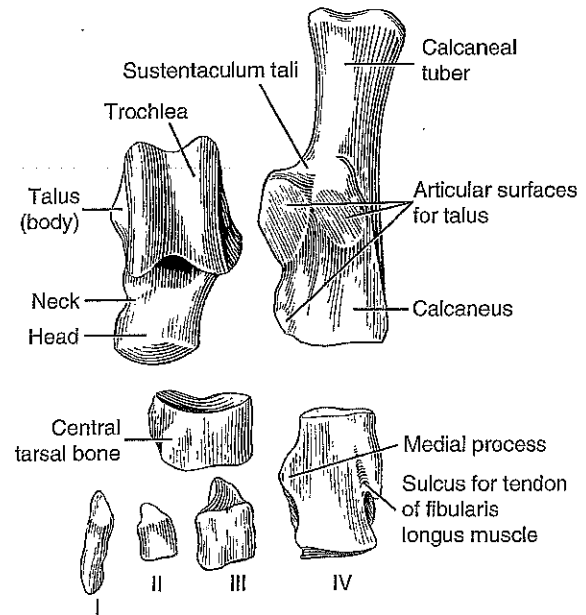

FIGURE 4-142 Left tarsus, disarticulated, dorsal aspect.

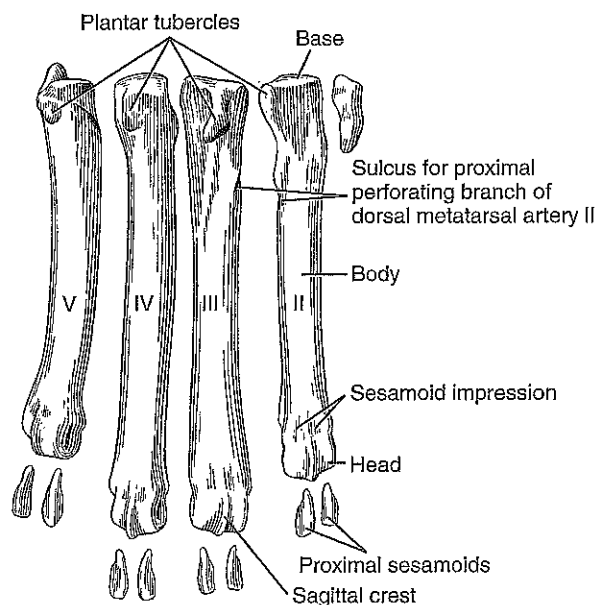

FIGURE 4-140 Left metatarsal and sesamoid bones, disarticulated, plantar aspect.

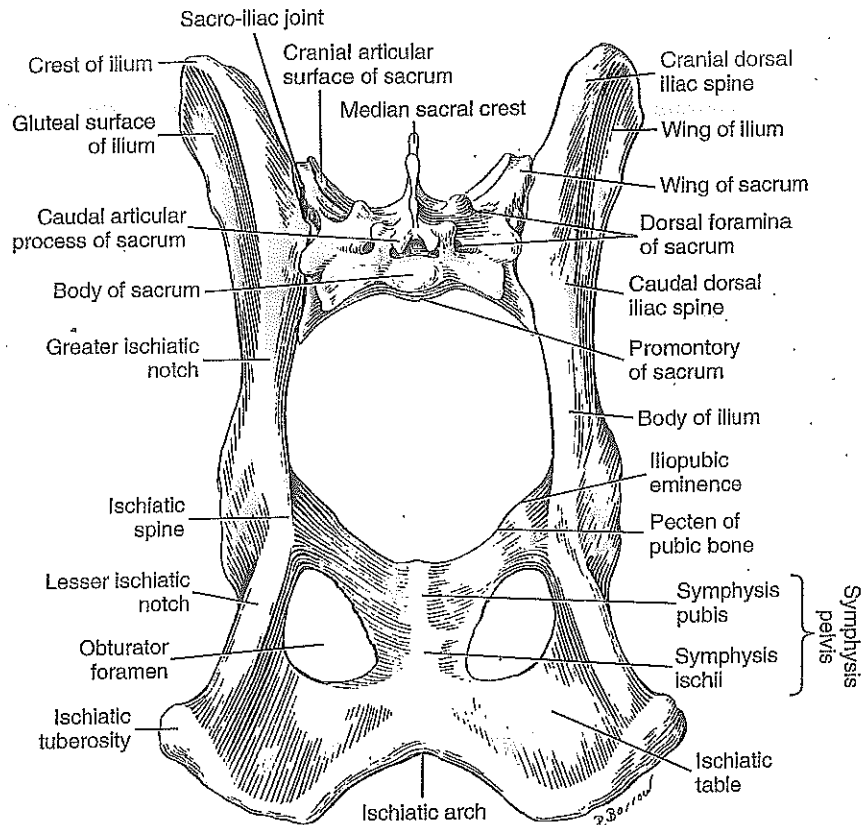

FIGURE 4-120 A, Pelvis, caudodorsal aspect. |

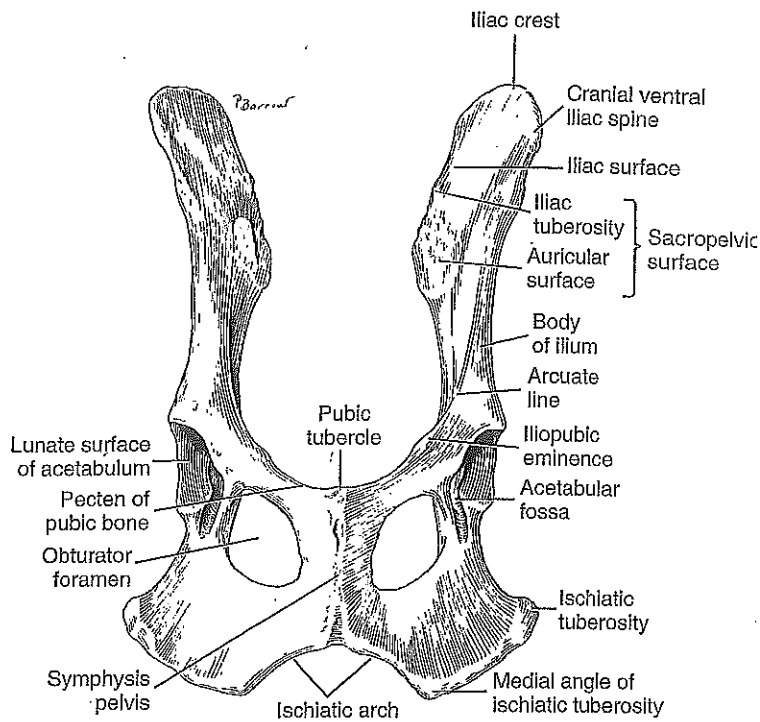

FIGURE 4-124 Ventral aspect of ossa coxae. Note the fused symphysis pelvis.

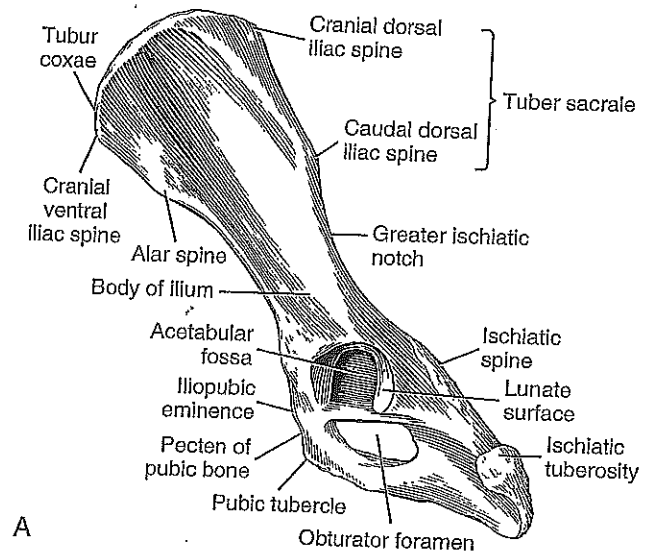

FIGURE 4-125 A, Left os coxae, lateral aspect. os coxae.

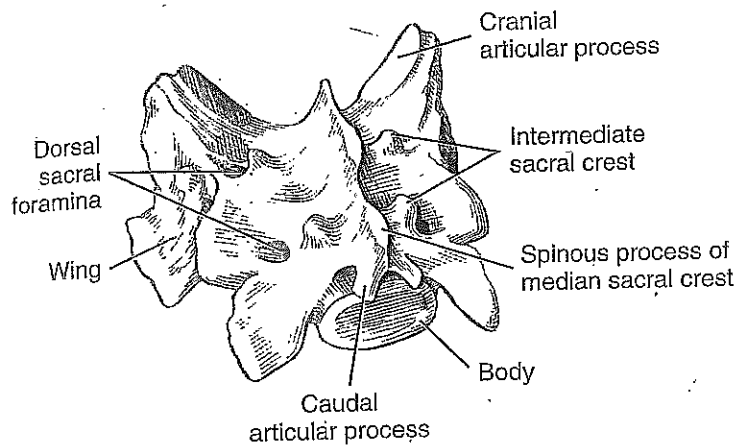

FIGURE 4-78 Sacrum, caudal lateral aspect.

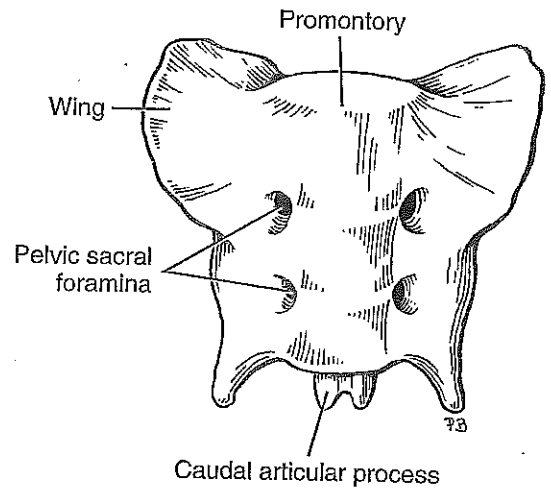

FIGURE 4-80 Sacrum, ventral aspect.

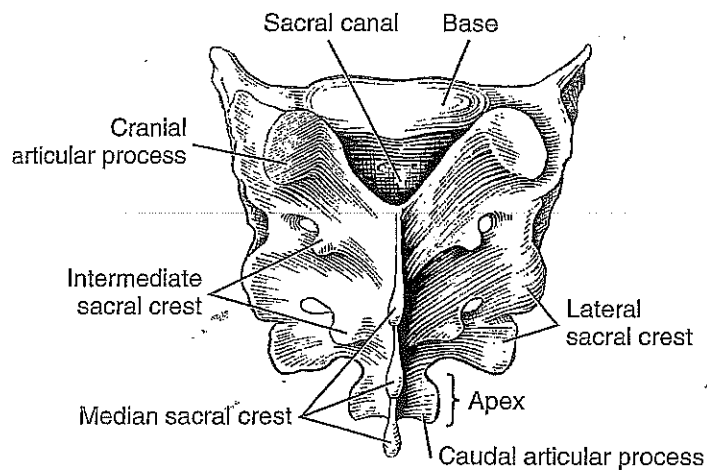

FIGURE 4-79 Sacrum, dorsal aspect.

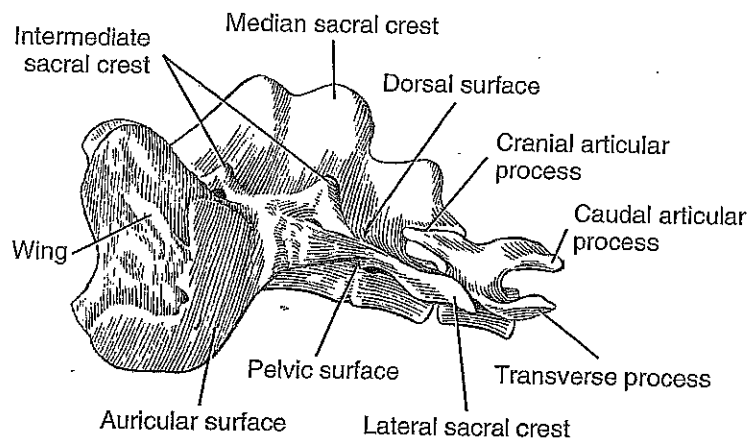

FIGURE 4-81 Sacrum and first caudal vertebra, lateral aspect.
